Table of Contents

1: Infection Control
   • 1.1: Introduction
   • 1.2: Infection Prevention and Control Practices
   • 1.3: Hand Hygiene and Non-Sterile Gloves
   • 1.4: Additional Precautions and Personal Protective Equipment (PPE)
   • 1.5: Surgical Asepsis and the Principles of Sterile Technique
   • 1.6: The Operating Room Environment
   • 1.7: Sterile Procedures and Sterile Attire
   • 1.8: Summary

2: Patient Assessment
   • 2.1: Introduction
   • 2.2: Pain Assessment
   • 2.3: Vital Signs
   • 2.4: Health History
   • 2.5: Head-to-Toe Assessment
   • 2.6: Initial and Emergency Assessment
   • 2.7: Focused Assessments
3: Safe Patient Handling, Positioning, and Transfers

- 3.1: Introduction
- 3.2: Body Mechanics
- 3.3: Patient Risk Assessment
- 3.4: Immobility and Assisting Patients
- 3.5: Positioning Patients in Bed
- 3.6: Assisting a Patient to a Sitting Position and Ambulation
- 3.7: Patient Transfers
- 3.8: Fall Prevention
- 3.9: Summary

4: Wound Care

- 4.1: Introduction
- 4.2: Wound Healing and Assessment
- 4.3: Simple Dressing Change
- 4.4: Suture Removal
- 4.5: Staple Removal
- 4.6: Moist to Dry Dressing, and Wound Irrigation and Packing
- 4.7: Drain Management and Removal
- 4.8: Summary

5: Oxygen Therapy

- 5.1: Introduction
- 5.2: Principles
- 5.3: Pulse Oximetry
- 5.4: Signs and Symptoms of Hypoxia
- 5.5: Oxygen Therapy Systems
- 5.6: Management of Hypoxia
- 5.7: Cautions with Oxygen Therapy
- 5.8: Oral Suctioning
- 5.9: Summary
6: Non-Parenteral Medication Administration
   6.1: Chapter 8. Intravenous Therapy
   6.2: Introduction
   6.3: Safe Medication Administration
   6.4: Administering Medications by Mouth and Gastric Tube
   6.5: Administering Medications Rectally and Vaginally
   6.6: Instilling Eye, Ear, and Nose Medications
   6.7: Administering Inhaled Medications
   6.8: Administering Topical Medications
   6.9: Summary
   6.10: Chapter 7. Parenteral Medication Administration

7: Blood Glucose Monitoring
   7.1: Introduction
   7.2: Parenteral Medications and Preparing Medications from Ampules and Vials
   7.3: Intradermal and Subcutaneous Injections
   7.4: Intramuscular Injections
   7.5: Intravenous Medications by Direct IV Route
   7.6: Administering Intermittent Intravenous Medication (Secondary Medication) and Continuous IV Infusions
   7.7: Complications Related to Parenteral Medications and Management of Complications
   7.8: Summary
