Book: Care Navigation of Older Adults

This course will explore care coordination and navigation with older adults. An overview of the aging process will be discussed. Topics will focus on individual and family centered care issues, communication and health literacy, working with interdisciplinary teams, chronic conditions, prevention, transitions, and resource referral.
2: Social, Economic, and Cultural Influences on Aging

3: Aging and Chronic Conditions

4: Cognitive and Behavioral Conditions Affecting Older Adults

5: Care Coordinating and Care Navigation
