Preface

This *Nursing Fundamentals* textbook is an open educational resource with a [CC-BY 4.0](https://creativecommons.org/licenses/by/4.0) license developed for entry-level prelicensure nursing students. Content is based on the Wisconsin Technical College System (WTCS) statewide nursing curriculum for the Nursing Fundamentals course (543-101), the 2019 NCLEX-RN Test Plan,[1] the 2020 NCLEX-PN Test Plan,[2] and the Wisconsin Nurse Practice Act.[3]

The project is supported by a $2.5 million Open Resources for Nursing (Open RN) grant from the Department of Education to create five free, open source nursing textbooks. However, this content does not necessarily represent the policy of the Department of Education, and you should not assume endorsement by the federal government.

More information about the Open RN grant can be found at [cvtc.edu/OpenRN](http://cvtc.edu/OpenRN). The first textbook of the Open RN textbook series, *Nursing Pharmacology*, received an OE Award for Excellence from OE Global. For more information, visit the [2020 OE Awards for Excellence site](http://2020 OE Awards for Excellence site).

Usage Survey and Feedback

We would love to hear if you have integrated some or all of this resource into your course. Please use this short [survey](http://survey) to report student usage information every semester that is reported to the Department of Education. Please use this [survey](http://survey) to provide constructive feedback or report any errors.
