Unit 2: Support and Movement

In Unit 2, students explore the skin, the largest organ of the body, and examine the body’s skeletal and muscular systems, following a traditional sequence of topics. This unit is the first to walk students through specific systems of the body, and as it does so, it maintains a focus on homeostasis as well as those diseases and conditions that can disrupt it.

- 5: The Integumentary System
- 6: Bone Tissue and the Skeletal System
7: Axial Skeleton

8: The Appendicular Skeleton

9: Joints

10: Muscle Tissue
